The following is a list of anomalies noted upon the arrival of samples from the Gregg County Refining Site on April 10, 2014:

- The time of collection was missing from all chain of custody documents. Please enter the time of collection on each sample on the COC.
- Sample ERBSB2 metals container with sample tag # 6-420136 did not have the time of collection.
- Sample SB14B semivolatile container with sample tag # 6-420066 did not have the time of collection.

We did not receive return airbills for the 3 coolers received today. We now have 7 coolers in our possession. Coolers are stacking up and we do not have space to store coolers – **please submit return airbills with future shipments so we can return your coolers to you.**
